

Finding books on the Learning Resource Centre catalogue

Every book, film and publication that comes into the library is put onto our online library catalogue.

You can browse the library catalogue by clicking on the following link:

www.librarything.com/catalog/LibraryPAH

Use the search box on the right-hand side to search for titles/authors.

There are special collections in the drop-down menu on the left-hand side, for example; 100 books in palliative care, Resilience and self-care, Bereavement support and Critical appraisal.

The screenshot shows the LibraryThing website interface. A red circle highlights the search box on the right-hand side, which contains the text "Search here...". Another red circle highlights the "Special collections" menu on the left-hand side, which lists various categories such as "100 Books in palliative care", "Resilience and self-care", and "Bereavement support". A red arrow points to the "Shelf D FEN" entry in the book list, with the text "Use the shelf-mark to find items in the LRC." written next to it.

| Year | Author | Shelfmark | Title |
