

Six Steps for Care Homes – 2024 dates

The aim of the Six Steps to Success in End-of-Life Care Programme for care homes with Princess Alice Hospice is to ensure all residents at end of life receive high quality care provided by care homes who encompass the philosophy of palliative care.

- Step 1 - Discussions as the end of life approaches
- Step 2 - Assessment, care planning and review
- Step 3 - Co-ordination of care
- Step 4 - Delivery of high-quality care
- Step 5 - Care in the last days of life
- Step 6 - Care after death

Based on the Six Steps described in the End-of-Life Care Strategy, **End of Life Care Champions** nominated by the care home are supported to develop their **knowledge, skills and confidence and share their learning with other members of the team**. The End-of-Life Care Champions will be responsible for implementing changes within the care home **to improve the quality of end-of-life care**.

The programme is delivered via three workshops and full support is given throughout the programme. The care home will be expected to produce a **portfolio of evidence** to support the implementation of the programme which follows the **5 CQC fundamental standards for care homes**.
