# Palliative Care in older adults and non-malignant disease

27 Sept 2024, 9.30am – 4.30pm at Princess Alice Hospice

- ✓ Be more aware of the changing complexity of palliative care patients and managing co-morbidities.
- ✓ Learn how other medical specialties are supporting people with multiple co-morbidities
- ✓ Increase knowledge to enable prescribing and de-prescribing

**Suitable for:** Multi disciplinary team working in palliative care or patients at the end of life. GPs, district nurses, community matrons, clinical nurse specialists working in either community, hospice or hospital settings.

## Speaker topics:

- ✓ Dementia and challenging behaviours
- ✓ Heart Failure
- ✓ End stage Renal failure and safe prescribing
- ✓ Frailty and deprescribing
- ✓ Geriatric Oncology
- ✓ Diabetes
