

Becoming an Environmentally Sustainable Hospice

Martin Osborn, Head of Operational Services; **Junior Adjepong**, Facilities Manager; **James Butler**, Health, Safety and Environment Officer; **Sarah Tullett**, Deputy Director Health, Safety, Environment and Business Continuity, Princess Alice Hospice

Looking ahead

We recognise we are only starting our environmental journey and that considerably more work is needed to collect relevant data, identify our actual 'net zero' journey, and implement further, meaningful, environmentally sustainable initiatives. Such future initiatives provisionally include looking at more effective energy, waste and water management, expanding our biodiversity, and further work with our Retail operations to identify environmental improvements.
