

Thank you

We are so grateful for your generous support which makes our care possible. Here are a few recent messages we've received — and they're all thanks to you.

"How can I start to thank you all for your kindness, compassion and understanding during my husband's time with you at Princess Alice Hospice. It meant so much to me and our children, knowing that there was a safe, comfortable, peaceful place to which we could go and be with him during his last few weeks. We were able to make memories for the grandchildren to show them later when they grow up, what a fab grandpa they had."

"My Husband died at your Hospice. I would like to thank all the staff for their wonderful care and attention not only for him but also us as a family...As one of your nurses said "you can stop being a carer and just be a wife." Once again thank you so very much."

"I am extremely grateful to the Princess Alice Hospice team. I really don't know how we would have coped without them. Thank you!"

"I just wanted to say what a lovely team you have here. Nothing seems to phase them. They ARE ALL fantastic, medics, ancillary staff."

"Your care we found exceptional. Thank you from all of us. I know I can always call you if needed on any subject."
